

FOODCO GROUP PTY LTD

March 31st 2013

To whom it may concern

I would like to recommend Leon Phillips and the team at Pacific Star Financial Planning for the terrific support and professional advice I have received over many years.

My association with Leon extends over 10 years and during that time I have always appreciated his proactivity approach to ensuring both my company and me personally are adequately covered by the very best available insurance plans and by sound investment options and financial advice.

I have found PSFM style is one of being less 'formal and corporate' and far more personal, but at the same time very specialized and thorough. It's this personal touch that helps build a stronger relationship which leads to a greater understanding of our business and its needs. This area of our business is critical and integral to responsible financial management. Mistakes and oversights can be very costly and I have every confidence in Leon and I'm comfortable in the knowledge that his planning will ensure we are best placed to deal with unfortunately circumstances should they arise.

I have no hesitation in recommending PSFP for insurance and financial planning and delighted to have them as our business partners.

Sincerely

Serge Infanti
